Thank you for selecting the Nintendo Entertainment System® ANTICIPATION™* Pak.

OBJECT OF THE GAME/GAME DESCRIPTION

Challenge yourself to quickly identify video pictures drawn on the screen and advance your Game Marker around the Video Game Board. Compete against the computer players or up to three of your friends. Don't forget to keep an eye out for the puzzle colors you need to advance to the next level. Anticipation has hundreds of puzzles from 16 different categories designed to give you and your friends countless hours of video fun.

1. PRECAUTIONS

- A. This is a high precision game. It should not be stored in places that are very hot or cold. Never hit it or drop it. Do not take it apart.
- B. Avoid touching the connectors. Do not get them wet or dirty. Doing so may damage the game.
- C. Do not clean with benzene, paint thinner, alcohol or other such solvent.

NOTE: In the event of product improvement, Nintendo Entertainment System specifications and design are subject to change without prior notice.

START Button:

Press this button to begin.

Pause:

If you wish to interrupt play in the middle of a game, press the START Button. The pause tone will sound and the game will stop. Press the START Button again when you wish to continue playing. The game will continue from where you left off. NOTE: The Pause function will not work during a puzzle.

3. SETTING UP THE GAME

Before beginning play, first select the number of players (you and your friends). Up to four can play one game. Then select the number of computer players (note: the maximum number of players and computer players combined is four). Finally, select the skill level for your game which will optimize both challenge and fun!

5. ADVANCED LEVELS OF PLAY

If you select a higher level of difficulty, or you advance to the higher Game Boards, you will be up against several new challenges. First of all, fewer "Dots" will be visible in each puzzle, or there will be no dots at all. Also, the spaces for the letters may not be displayed or certain high difficulty puzzles may also appear. On certain Game Boards, Feature Squares will appear. If you land on one of these, something crazy will happen. Stay cool and press the A Button at the right time and you'll "get your feet back on the ground". On the highest level of difficulty, watch out for Drop-Out Squares. Land on one of these and ... well, just don't do it!

On the Puzzle Screen, the Video Pencil slowly draws the Puzzle picture. The Die in the upper right corner counts down to zero. If you know the answer before the Die gets to zero, press your assigned Control Pad or Button. If you need a certain color, you may want to wait until the Die shows the number you need to advance that color before you press your Control Pad or Button to answer.

PUZZLE SCREEN

One of the four Player Markers will flash indicating who answered first. The timer starts, indicating how much time is left to enter the correct answer. If you were first, spell the answer as quickly as possible using the Control Pad to move the Letter Select Cursor left or right, then pressing the A or B button to select the letter. You are allowed only one mistake, so be careful!! If you answer incorrectly, other players may try solving the same puzzle before the Die gets to zero.

COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna
- Relocate the NES with respect to the receiver
- Move the NES away from the receiver
- Plug the NES into a different outlet so that Control Deck and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful:

How to Identify and Resolve Radio-TV Interference Problems.
